Accessing our Streamed Assemblies for the best at home experience:

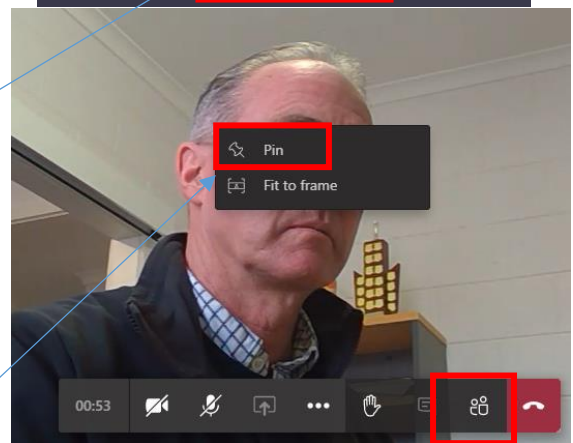

You will receive a link to the assembly through our school newsletter. When you click on the link you will be prompted to join the Teams meeting (live assembly stream). Select **Continue on this browser**. If you have Microsoft Teams installed on your computer, you can join using that as well.

It is important to enter the Teams meeting with your sound and video turned off. If you see a pop up window asking for permission to access your microphone and camera click **Block**. This will ensure they are not on when you enter the online assembly.

Please ensure your camera and microphone are off.

Add your initials and click Join now

For the best experience find the school video feed (look for Oates, Ricky W) and **Pin** this to your screen. If the live stream from my computer is not visible on your screen click on the Show Participants icon. You will see (Oates, Ricky W) in the list. Right Click and select **Pin**.
